About CPRE, the countryside charity

CPRE is the countryside charity that campaigns to promote, enhance and protect the countryside for everyone's benefit, wherever they live.

With a local CPRE in every county, we work with communities, businesses and government to find positive and lasting ways to help the countryside thrive - today and for generations to come.

What we do

We connect people with the countryside so that everyone can benefit from and value it.

We promote rural life to ensure the countryside and its communities can thrive.

We empower communities to improve and protect their local environment.

Through all our work we look at the role of our countryside in tackling the **climate emergency**, including seeking ways to increase resilience and reduce impact.

Our vision (what we want to achieve):

A beautiful and thriving countryside that enriches all our lives.

Our mission (what we need to do to achieve our vision):

To promote, enhance and protect a thriving countryside for everyone's benefit.

Our values:

Open:	We are inclusive and respectful of everybody, no matter who they are or where they live. Our countryside is for everyone and so are we.
Trusted:	We use evidence, knowledge and experience to influence positive change. Others believe what we say because they know we can back it up.
Connected:	We value lasting and effective relationships. We invite and encourage collaboration to find what is best for the countryside we love.
Inspirational:	We bring ambition and determination to everything we do. We channel our passion to motivate others and encourage them to act.

About the role

We live in times of unprecedented development pressure and policy change, with far reaching reforms to planning law and policy expected in the light of the Levelling Up & Regeneration Bill.

Could you be the person to help CPRE the countryside charity get better planning policies and decisions for the good of rural communities, the countryside and our climate? An exciting new opportunity has arisen for a spatial planning lead to support our work on influencing the planning system at a national level, research how the planning system is working at the local level and providing planning advice to our network. The position reports to the Head of Policy & Planning.

Work with one of the country's leading environmental charities and make a significant contribution to promoting, enhancing and protecting the countryside for everyone to enjoy.

You will have three years' experience of developing planning policy in the English system, most likely a qualified planner, and a commitment to campaigning on subjects relevant to CPRE purposes.

You will need to have excellent communication skills, with the ability to articulate and present complex policy arguments and data. You must have experience of successfully initiating and managing projects on areas of planning policy relevant to CPRE's work.

CPRE places high value on equality. We treat everyone with respect and consideration because we know it's the right thing to do. We also know that diverse teams make much better decisions, are more creative and more stimulating to work in. So, if you join us, you will be able to help us put equality, the environment and diversity at the centre of everything we do. We hope you like the sound of the job and will take the time to apply!
